

Built to scale across DRS

Making
recycling easier
for everyone.

For **40+ years**, Envipco has been revolutionizing recycling with innovative Reverse Vending Machines (RVMs) trusted by retailers and consumers in over 20 countries.

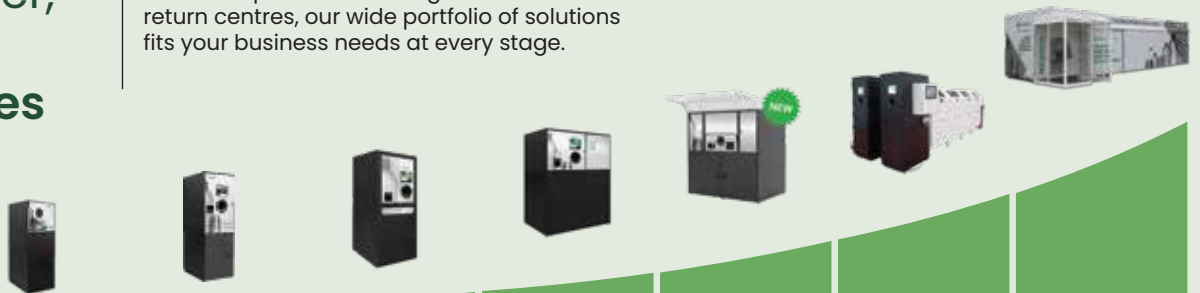

Handling millions of containers daily, our solutions serve everyone, from corner stores to large return centers.

We succeed by adapting technology to local needs and offering dedicated partner support.

**One partner,
multiple
possibilities**

From compact stores to high-volume return centres, our wide portfolio of solutions fits your business needs at every stage.

| Machine | COMPACT | FLEX | ULTRA | OPTIMA | MAGNA | MODULA | QUANTUM |
|-------------|-------------|-------|-------|--------|------------|---------|---------|
| Application | Convenience | | | | Superstore | | |
| Volume | Low | Low | Med | Med | High | High | V-High |
| Footprint | Mini | Small | Med | Med | Large | X-Large | X-Large |

Mission

Our mission is to make recycling easier for everyone. Emerging as the forward-thinking leader, we continuously invest in developing and offering innovative technology solutions for beverage packaging recycling.

We have a clear strategy for accelerated growth and are committed to delivering excellent products and services to our customers, tangible results to our investors, and a great place to work.

Vision

At Envipco, we are creating a cleaner world for future generations through our recycling technology.

About Envipco

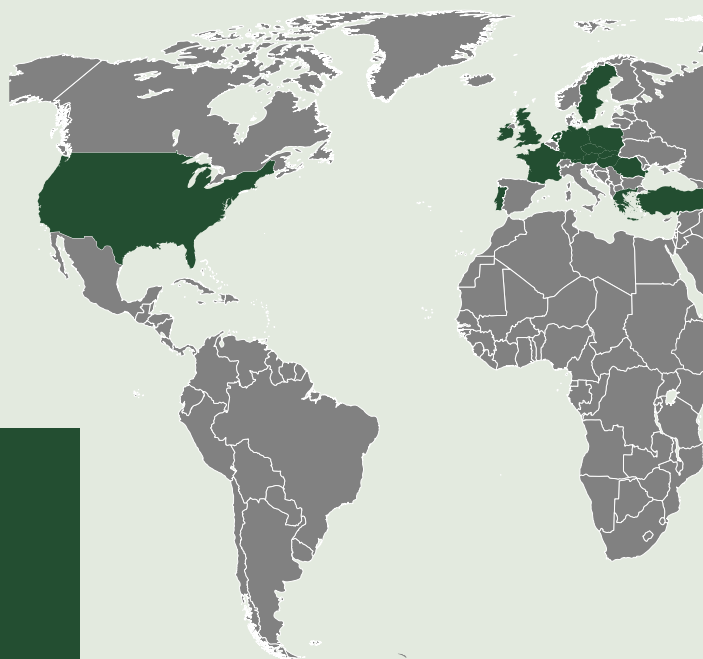

Envipco is a recognised leader in the development and operation of reverse vending machines (RVMs)—automated systems for the recovery of used beverage containers. Our solutions support effective and efficient deposit return schemes (DRS) and circular economy initiatives worldwide.

Known for our innovative technology and market leadership, Envipco holds multiple intellectual property rights related to RVM systems, including beverage deposit recognition, material identification, compaction, and accounting technologies.

The company is headquartered in the Netherlands and is publicly listed on Euronext Amsterdam and Euronext Oslo Børs.

Global presence

Envipco operates in multiple countries worldwide, with teams supporting research, manufacturing, sales, and service. Our global network enables us to address local needs with proven expertise and long-standing experience.
